

ROHIT SALVE

Chandrapur, MH | +91 93076 41755 | salver814@gmail.com | linkedin.com/in/rohit-salve | github.com/RohitSalv | rohitsalve.in

TECHNICAL SKILLS

Languages: Java (Core & Advanced), JavaScript, TypeScript

Backend: Spring Boot, Hibernate, JPA, RESTful APIs, JDBC, Microservices (Fundamentals)

Frontend: Angular 17+, HTML5, CSS3, Bootstrap, Tailwind CSS

Database: MySQL, ER Modeling, SQL Queries

Security & AI: JWT Authentication, RBAC, Google Gemini API, Cloudinary API

Tools: Git, GitHub, Postman, Maven, VS Code | **Concepts:** OOP, MVC, CRUD, CI/CD Basics, API Design

PROJECTS

Pixory | *AI-Enhanced Image Management Platform* | [GitHub](#) Feb 2026

- Built a decoupled full-stack platform (Angular 20+ / Spring Boot 3.2.2) that auto-enriches every uploaded image with AI-generated descriptions and searchable tags via Google Gemini (gemini-2.5-flash), eliminating manual tagging at scale.
- Engineered an asynchronous AI ingestion pipeline (Resize → Upload → Analyze → Persist) using event-driven processing; integrated Cloudinary for CDN-backed storage and Thumbnailator for async image resizing.
- Implemented JWT security with Refresh Token rotation, transactional email workflows (SMTP), and a responsive Angular/Tailwind CSS v4 UI using RxJS and Angular Signals for reactive state management.
- **Stack:** Angular 20+, Spring Boot 3.2.2, Java 17, Google Gemini API, Cloudinary, MySQL, JWT, Tailwind CSS v4, RxJS, Lombok

Unbound | *Anonymous Community Platform* | [GitHub](#) Oct 2025

- Designed and built a full-stack anonymous community platform with 8 core entities (Users, Channels, Threads, Posts, Tags, Reactions, Bookmarks, Reports) and scalable REST API architecture.
- Secured all endpoints with JWT-based authentication and role-based access control; built Angular frontend with infinite scroll, trending explorer, and channel views.
- **Stack:** Spring Boot, Angular, MySQL, JWT, REST APIs, Lombok, JPA/Hibernate

Sahara | *AI-Powered Domestic Violence Support Platform* | [GitHub](#) Jul 2025

- Led a cross-functional team of 4 to build an accessible support platform; integrated FAISS vector search to surface relevant help resources from a knowledge base using natural language queries.
- **Stack:** Angular, Spring Boot, Java, Python (Flask), MySQL, FAISS

EXPERIENCE

Intern – Java Domain (Internship 6.0, Batch 13) Feb 2026 – Present
Infosys Springboard Remote

- Advancing Java and enterprise development skills through Infosys's structured industry-aligned virtual internship program with hands-on technical modules and corporate mentorship.

Java Full Stack Developer Trainee Feb 2025 – Jul 2025
The Kiran Academy Nagpur, MH

- Completed 6-month full-stack training in Java 17, Spring Boot, Hibernate, Angular 17+, and MySQL; delivered SamTrack — an end-to-end attendance management system with admin/faculty login, CRUD dashboard, and subject tracking.
- Applied Git version control, Postman API testing, and REST API design across multiple simulated client projects.

Front End Web Development Intern Aug 2025 – Oct 2025
Edunet Foundation – IBM SkillsBuild Remote

- Completed project-based frontend internship; attended mentor-led sessions and delivered a real-world frontend project.

EDUCATION

Ballarpur Institute of Technology Bamni, Maharashtra
B.Tech, Computer Science and Engineering | CGPA: 7.43/10 Dec 2021 – Aug 2025

ACHIEVEMENTS & CERTIFICATIONS

- **Odoo Hackathon 2025** – Ranked Top Team nationally; advanced to offline final round out of hundreds of submissions.
- **HackerRank** – 5-star badge in Java | 2-star badge in SQL.
- **Certifications:** Programming using Java (Infosys Springboard) | Spring Boot for Beginners (Amigoscode) | DevOps Pre-Requisite (KodeKloud) | GitHub Copilot: Code Smarter (Wilco) | Java Basic (HackerRank)
